House Bill 701 Update

December 2, 2013
Krissy Culler, Deputy State CIO

House Bill 701
Update on Cooperative Purchase Agreements

- 2013 legislation

  - Allows collaborative and collective purchase of IT goods and services to increase economies of scale and reduce costs

  - Authorized State CIO to evaluate proposed purchases through cooperative purchasing agreements, when requested by agencies

- State CIO's office, along with agency CIOs, are identifying areas where cooperative agreements will benefit the state. Recent examples include:

  - Agency purchased Cisco Network Switch Appliances, Software and Maintenance using the ITS Agency Cisco contract to satisfy an urgent operational need

  - General Services Administration (GSA) and Western States Contracting Alliance (WSCA) contracts considered when contracting with major vendors

  - LEAs and DPI purchased Learning Object Repository licenses and training for all the LEAs, through a DPI eCollege contract; coordinated through the NCCCSO

  - NC, SC, and GA are working together under the Southeast Consortium Unemployment Benefits Initiative (SCUBI), which is a collaborative effort to modernize state Unemployment Insurance (UI) systems.

Executive Order 30

December 2, 2013
Chris Estes, State CIO

Cabinet working as a **team**
Governor is breaking silos to improve customer service and efficiency

Pat McCrory, Governor

Thomas Stith, Chief of Staff
